For The Future!

The J.V. Boy's had a very upsetting year this season. They didn't have that much individual talent on the team. Inexperience played an important role on this year's team. They never really got to playing together and getting the right chemistry going. With time and experience these players may be of some help to varsity teams.

The J.V. Girls had a rebuilding year. The girls got mostly experience and learning fundamentals. These girls also with time and some hard work may be a great addition to the varsity team.
