## THE WAY WE WERE

The sophomore class of '81 has fond memories of the final year before entering senior high school. Memories of friends gathering for chatting, being late to class, even school, and getting the gitters before going to a principal. Thoughts of getting called down in class for goofing off, gathering in the lunch line and shooting the breeze before getting a plate, and the fun that a particular class provided. These memories will hopefully stay with the students through their future travels in life.

Evon Robinson says, "Hey, I'm in girl heaven."
