

STUDENT LIFE • MORE

Life is a Bowl of Exciting Events Mixed with a Little of the Pits!

At 3:10 the awaited dismissal bell rang. Students made a mad dash to the parking lot. A steady stream of anxious students flowed down Bulldog Avenue. Away from school students created their own world in which to relax. The school day was over and it was time to concentrate on more enjoyable things, such as an afternoon snack, a friendly telephone conversation, or a bicycle ride.

At home a student could be himself. He knew that he could have privacy in order to rest or gather his thoughts. Entertainment was a major concern despite relaxation. Stereos, VCR's, TV's and telephone all helped to fulfill the entertainment purpose. WKQB and 95SX were the favorite radio stations. If music wasn't the name of the game, there were several places to rent the top movies. On Thursday evenings at 8:00, most student's TV's were tuned to The Bill Cosby Show. If all else failed, then the telephone was at one's disposal.

Of course there was always a party to attend on the weekend and with the closing of the Sonic they were always enjoyable. Staying at a friends house was popular along with going to Charleston to one of the malls. Shopping was a favorite pastime.

In any event a student's life offered the opportunity for unending excitement and if boredom ever set in, a little ingenuity and creativity was a surefire cure to the blues.

LOOKING GREAT and feeling good are becoming a major concern for people of all ages. Carmen Sauls and Shannon Cone jog in their neighborhood after school for both social and healthy reasons.
