

The education

of a

man

is

never completed

until he dies.

— Robert E. Lee

MAKING *The Grade*

Achieving academic excellence wasn't the easiest thing to do. Once students got involved with extra-curricular activities and began to develop their student lives, they remembered the real reason that they were in school . . . to learn!

Whether fulfilling last minute requirements for graduation or just taking an elective for fun, students spend seven hours a day trying to handle the day-to-day battle with homework, projects, and labs. If the task was very simple or if it took hours to complete, students did what they had to in order to make the grade.

— Lindsey E. Robertson
