**Leave me Alone.** Sophomore Beth Kitler plugs her ears and tries to get a couple of minutes of studying amid study hall confusion. A high GPA was Beth's pay-off for all the studying.

**Not the Express Lane.** While underclassmen pictures were being taken, juniors Daniel Songer and Jermaine Farmer along with the rest of the class slowed down to waste as much time as possible. Loitering at such class interruptions caused few problems for administrators.

**Study Music.** With his headphones strapped on, junior Jamonte White sketches as quickly as possible to finish before the deadline. Students used music to escape from the pressures of school.
