

# Make a Perfect *Blend*

The academic program offers college-bound curriculum and a school-to-work transition program. The students can choose college prep or technical tracks and may even jump tracks during the four high school years. So no matter whether students opt for four more years of education or immediate job placement, the school prepares them for both.

With football, basketball, softball, baseball, soccer, tennis, track, cross-country, golf, and volleyball offered, students can develop physical skills.

Students can enhance their appreciation of the fine arts in band, chorus, and art classes.

The well-rounded student will reflect just the right mix.

— Leah Steele

**Run, Kenneth, Run!** Running for the end zone, senior Kenneth Chisolm looks downfield. Kenneth was often used in the Power I offensive formation when the Bulldogs neared the end zone.

**Chef Boyardee?** Preparing a pizza in a food and nutrition class, Selena Manigo and Natalie Williams add the finishing touches. Students were able to learn the basics of cooking in the food and nutrition classes.
