

ONE JUST BIG Party

W

hen the prom ended, all parties began. Junior/Senior weekend was a continuous weekend of non-stop partying. Those two days and nights were the most memorable days of the year. "I really enjoyed my first Jr/Sr weekend," said foreign exchange student Andres Pramborn. "The McDaniel house party was my favorite. I hope to be back next year."

The majority of the students after the prom headed straight to Edisto Beach. "After prom I didn't even take time to change out of my prom dress," said sophomore Alicia Shelley. "I was ready to party all night long with my friends." Edisto is always a great place where students can forget about school and just have fun with their friends.

Most students gathered into groups and rented beach houses or condos with their closest friends. Finding the right chaperone for the weekend was a task. "I will always remember this Jr/Sr because we had the BIG PARTY," said junior Robin Bullock. "We also had no restrictions because our chaperone was so cool."

The days at the beach were spent hanging out at the Cabana playing volleyball, swimming, lying out getting tans, and just hanging out with friends. The nights were spent partying hard. "For my first Jr/Sr weekend it was 'da bomb' especially the McDaniel house party," said sophomores Shontay Blackeney.

Soon Sunday came and some students packed up and headed home to recover from all the partying. Others decided to stick it out and party one more night. By Monday all the parties had ended and the clean up began.
