

Let's Celebrate

Holidays called for much celebration

Students definitely looked forward to holidays. Spending time with family, eating holiday food, receiving gifts, and most of all, not going to school were reasons to get anyone excited. Making big plans for the time off, students could not wait for their favorite holiday to roll around.

"I'm looking forward to Easter because we get a week off from school, and I get to go skiing," said senior Alex Pournelle.

Valentine's Day had the biggest turnout of all the holidays. Excited boyfriends and girlfriends received tons of flowers,

balloon, teddy bears, and candy.

"I got a gold bracelet, a charm, a dozen roses, and balloons from my boyfriend Corey. I was so surprised! It was the most romantic Valentine's Day I've ever had!" said junior Sara Rodriguez.

All the holidays throughout the year provided students with a day to celebrate or relax. Whether it was Thanksgiving, Christmas, New Years, Valentines Day, or Easter, all holidays were opportunities to "celebrate good times."

— Alicia Shelley

Trick or Treat? Seniors Leah Steele and Margaret Young show their Halloween spirit by showing up to school dressed in their costumes. The two were active members of student council.

Be My Valentine! Waiting for the rest of her flowers, junior Morgan Walker wonders how she is going to carry all her stuff. Students were only allowed to pick up flowers during their lunches.

What was your favorite holiday experience ever?

"One Christmas Break I went to Pennsylvania to spend time with my grandmother. She took us skiing, and I had a really great time."

— Melissa Hornyack

"I spent Christmas Break up in North Carolina, and met so many girls from around there."

— Chris Harrison

Guess Who! Juniors Cabrelle Pinckney and Cassina Edwards take a peek at the cards from their valentines. Both girls had after school jobs at Subway.
