NOTHING BUT NET

Whether passing the ball to a teammate or going for a lay-up, the girls' and boys' junior varsity teams succeeded by working together.

Both teams began practice in early November. They chalked up a good season because of the great effort of each player.

The JV boys' squad had an up and down season, in which they barely squeezed by in many games. “We lost a couple of real close games,” said Coach Brian Strickland. “We were late and just came up short.” If this team learned one thing, it was that you have to go out and play hard and with emotion every night to have a chance to win. The team ended the season with a seven and nine record.

Danny Parnell coached the J.V. Lady Dogs for a second year. “The team has had a great improvement over last year's season,” said Coach Parnell. “We were a few close games away from a winning record.” The quantity of players was better than the last few years and the team showed that they wanted to improve the record. The girls ended the season with an 8 and 8 record.
